Dear FDA:

Please consider rescinding your proposal to mandate pasteurization of juice.

- Non-pasteurized juice is prohibitively expensive. People do not indiscriminately choose these juices and understand what they are consuming.
- Your effort stop at my front door. There is no way that you will be able to prevent private juicing with the numerous products available for that purpose. Do you really think the average U.S. kitchen is cleaner than a typical juice manufacturer?

Please reconsider,

Chris Hart
